Wedding Documentary

While your wedding day holds so many beautiful moments, impressions and details, that are impossible to realise and remember altogether, we're sneaking around to capture all these wonderful memories for you and your guests. We are looking out for all the big and small things that happen during the day, creating a documentary that will make all your emotions come back to life even after many years after your big day. To be able to create a real and consistent story through our photos, we can be booked for 8 hours on weekends. We are a perfect fit, if you are planning your wedding day around yourselves and the people you love.

- 8 h wedding coverage, usually starting with the last 1-2 hours of getting ready
 - couple shoot and group shots on the wedding day
 - all digital photos as download in high resolution for print and web (on a 8 hour coverage we usually select around 450-600 images)
- editing period: about 6 weeks (you will receive a few final images within the first week to use them on Thank You notes, social media etc.)
 - right of use for private duplication

"A birth certificate shows that you were born, a death certificate shows that you have died, but a photo album shows that you have lived."

Couple Shoot

Just like us, you might not be used to stand in front of the camera together quite often, right? If that's the case, an engagement shoot is a wonderful solution to combine the following: We all get to know each other and at the same time you will receive some beautiful photos of the two of you in a casual outfit, that you can use for your save-the-date, invitations or wedding website. It is the same with your first dance lessons: skill comes with practice!

It will also bring tons of fun and great memories.
